## EDUCATION

Instituto De Educación Activa (IDEA), Valencia, Venezuela — High school Graduate, 2018

University of Miami (UM), Miami, FL — Coding Bootcamp Student, 2020- Present

## PROJECTS

### **Finance App :** *"Invest-Gator"*

This is research app that gives info about the stocks selected. The user will select up to 5 companies of interest and the app will render a dashboard that has the latest stock price of each of the companies and the latest information.

**GitHub link to app :** <https://github.com/swatso2020/Project1>

## MOTIVATION/GOALS

Master web development skills specially Javascript and become a mastered UI/UX designer. I also plan on expanding my knowledge into mobile app developer.
